

**MailPreparer®** is the industry’s premier web based service supporting 7 by 24 CASS™, NCOALink®, DSF2®, de-duping, and presort; allowing you to work whenever and wherever you want. Processing mailing lists for the lowest discounts has never been easier.

- 🔗 Learning to use our web-based interface is easy
- 🔗 Increase your list processing margins through low cost pay-as-you-go or subscription models including unlimited NCOALink®
- 🔗 Tap into the power of the industry’s leading CASS™ and NCOALink® engines
- 🔗 Eliminate duplicates and Presort with a user friendly interface
- 🔗 Produce Basic or Full Service IM® barcodes with a single click; always compliant with the latest USPS® requirements
- 🔗 Construct pallets of trays, sacks or loose bundles based on your pallet rules; output all required reporting including postal statements, pallet placards, tray or sack tags
- 🔗 Dynamically perform drop ship entry planning as an embedded function of the presort, leveraging your business rules to produce cost effective destination entry mailings in one step
- 🔗 Download and open reports and output files from a standardized online file manager
- 🔗 Generate IDEAlliance® Mail.dat® for upload to USPS® PostalOne!®, and track your mailing via USPS® Confirm® with a click of a button

More affordable and flexible than traditional mailing applications, TEC’s “everything included” MailPreparer® subscriptions save you money and give you more. Each unlimited use subscription level has the same advanced functionality; simply choose the record limit appropriate for your organization. For instance, the business level subscription allows users to run as many jobs as they wish as long as no single job exceeds 100,000 records. No more expensive add-ons or credits needed for NCOA, de-duping, mail.dat, IM barcode, palletization, dynamic drop shipping & more...it’s in there!

Subscriptions	MailPreparer		
	Days	Per Job Max	Cost
